Homework done by AI?

AI Tutoring

Khanmigo
An AI tutor that guides students to learn,
think, and revise the concept of the topic.

The screenshot shows the Khanmigo AI tutoring interface. At the top, there is a header with the Khanmigo logo (a stylized face with eyes) and the text "Khanmigo" and "AI power". Below the header, a notification states "This conversation is recorded and viewable by your parent and teacher." The main chat area contains three messages: a student question "Can you just tell me the answer?", a tutor response "It's important that you learn how to do this yourself! What do you think you need to do to multiply 2 by 5/12?", and a student response "They need the same denominator." The tutor's next response is "That's a good thought, but in this case, you don't need to find a common denominator because you're multiplying, not adding or subtracting. What else could you try?". At the bottom, there is a text input field with the placeholder "Type message (do NOT share any personal data)", a microphone icon, a "Clear chat" button, and a send button.

Khanmigo
AI power

This conversation is recorded and viewable by your parent and teacher.

Can you just tell me the answer?

It's important that you learn how to do this yourself! What do you think you need to do to multiply 2 by $5/12$?

They need the same denominator.

That's a good thought, but in this case, you don't need to find a common denominator because you're multiplying, not adding or subtracting. What else could you try?

Type message (do NOT share any personal data)

The screenshot displays the Synthesia AI video generator interface. At the top, a navigation bar includes the Synthesia logo, a play button, and icons for 'Shape', 'Media', and 'Record'. A central video preview window shows a woman with long blonde hair, wearing a black blazer over a white shirt, standing in a modern office setting. A speech bubble above the video reads 'This is what your video will look like'. Below the video, there are controls for 'English (US) - Engaging', 'Gesture', 'Marker', 'Pause', and 'Dictation', along with a play button and a timer showing '0:00 / 0:09'. To the right of the video preview is a grid of avatars labeled 'Carly', 'Kyle', 'Jonathan', 'Evelyn', 'Laura', 'Matt', 'Kenneth', and 'Natalia'. Below the video preview, the script text is visible: 'Hi, I'm Carly! I'm an AI avatar created entirely by artificial intelligence. You too can create a video like this with just a few clicks. Try it out for yourself today!'.
